

**POWERFUL
SUPPORT**

 **safe**

SAFE... KNOWING FOR SURE

If you are building anything with concrete, when it comes to shoring, you prefer to be SAFE - obviously for Safety, but also for certainty. The certainty of a partner that guarantees continuity and that can provide the right falsework for even the most complex concrete structures; irrespective of whether you are working on a residential, utility or civil-engineering project. A partner that works quickly and efficiently. A partner that uses the right equipment, expertise and people.

- From stacked residential units to office buildings and retail premises.
- From viaducts to power stations.

SAFE provides you the strongest support for every project!

INNOVATIVE

SAFE... THE RIGHT PEOPLE

The combination of the right equipment with high-quality engineering, well-organised project management, accurate quality assurance and smart logistics also make SAFE the best choice on building sites. Our experienced and qualified scaffolders guarantee fast, efficient and safe erecting and dismantling.

If you would prefer your own personnel or subcontractor to put up your scaffold? SAFE can deliver an adaptive solution that include detailed drawings, static calculations and exactly the right equipment that you need for your project - just-in-time, geared to your tight scheduling. You can also count on SAFE for precise budget control and additional supervision on your building sites.

POLYKOLOM FORMWORK

THE RIGHT RESOURCES ...

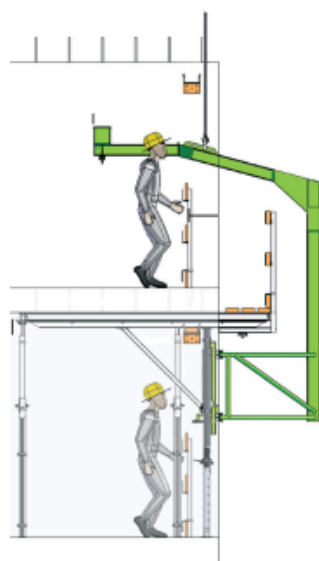

SAFE has been designing, renting out, selling, assemble and dismantling modern scaffolding, shoring and formwork systems for the construction industry for more than 25 years. SAFE has played a significant part in the success of a large number of high-profile construction projects . With a wide range of innovative systems including, for example, the well-known Polyfalsework systems as well as smart additional applications developed in- company. Such as the prefab Polykolom for round columns and the Ringscaff scaffold system that is now the standard for scaffold solutions.

STAIRWAY

LEADING INTERNATIONAL COMPANY

SAFE is the absolute market leader for concrete scaffolding, shuttering and formwork in the Benelux, but its scope extends much further. SAFE is an independent subsidiary of Scafom-rux. This multinational with its holding company based in Budel (the Netherlands) is active on every continent. The group companies focus on the production, sales and rental of scaffolding systems, support concepts and related techniques and solutions.

In other words: SAFE literally offers you access to limitless expertise and *the best solutions worldwide.*
